

Digital Theatre Programme 2020/2021

The Digital Theatre Programme offers support for innovative digital theatre projects by ETC Member Theatres and fosters international digital community building and outreach. The programme encourages ETC Member Theatres to experiment in the digital theatre field either by developing a new artistic production or researching and implementing new digital solutions for theatre productions or for working processes. Digital theatre projects will be showcased on ETC's website for further international promotion.

The Digital Theatre Programme is part of "ENGAGE - Empowering today's audiences through challenging theatre", co-funded by the Creative Europe Programme of the European Union.

Grants for ETC Members:

The grant consists of a contribution to artistic creation/development costs (fees) of up to €1,000.
